

APPENDIX II

**CLEAN VERSION OF THE ENTIRE SET OF PENDING CLAIMS AS
AMENDED IN THIS COMMUNICATION**

7. (Amended once) An isomerized conjugated linoleic acid composition comprising at least fifty percent 9,11-octadecadienoic acid and 10,12-octadecadienoic acid, said isomerized linoleic acid composition being characterized in including less than one percent 11,13-octadecadienoic and 8,10-octadecadienoic acid isomers expressed as peak area percentage.
8. (Amended once) The composition of Claim 7, wherein said conjugated linoleic acid composition is an ester.
9. (Amended once) The composition of Claim 8, wherein said ester is selected from the group consisting of methyl esters, ethyl esters, triglycerides.
10. (Amended once) An isomerized conjugated linoleic acid composition comprising at least fifty percent 9,11-octadecadienoic acid and 10,12-octadecadienoic acid, said isomerized linoleic acid composition being characterized in including less than one percent 11,13-octadecadienoic and 8,10-octadecadienoic, and trans-trans-octadecadienoic acid isomers expressed as peak area percentage.
11. (Amended once) The composition of Claim 10, wherein said conjugated linoleic acid composition is an ester.
12. (Amended once) The composition of Claim 11, wherein said ester is selected from the group consisting of methyl esters, ethyl esters, triglycerides.
13. (Amended once) A food product comprising isomerized conjugated linoleic acid, said isomerized linoleic acid composition being characterized in including at least 50% 9,11-

octadecadienoic and 10,12-octadecadienoic acid isomers and less than one percent 11,13-octadecadienoic and 8,10-octadecadienoic acid isomers expressed as peak area percentage.

14. (Amended once) The food product of Claim 13, wherein said conjugated linoleic acid composition is an ester.

15. The food product of Claim 14, wherein said ester is selected from the group consisting of methyl esters, ethyl esters, triglycerides.

16. (Amended once) A food supplement comprising isomerized conjugated linoleic acid, said isomerized linoleic acid composition being characterized in including at least 50% 9,11-octadecadienoic and 10,12-octadecadienoic acid isomers and less than one percent 11,13-octadecadienoic and 8,10-octadecadienoic acid isomers expressed as peak area percentage.

17. (Amended once) The food supplement of Claim 16, wherein said conjugated linoleic acid composition is an ester.

18. (Amended once) The food supplement of Claim 17, wherein said ester is selected from the group consisting of methyl esters, ethyl esters, triglycerides.

19. (Amended once) An isomerized conjugated linoleic acid composition comprising at least fifty percent conjugated linoleic acid, said isomerized linoleic acid composition being characterized in including at least 50% 9,11-octadecadienoic and 10,12-octadecadienoic acid isomers and less than one percent 11,13-octadecadienoic or 8,10-octadecadienoic acid isomers expressed as peak area percentage.

20. (Amended once) The composition of Claim 19, wherein said conjugated linoleic acid composition is an ester.

21. The composition of Claim 20, wherein said ester is selected from the group consisting of methyl esters, ethyl esters, triglycerides.

22. (Amended once) A food product comprising isomerized conjugated linoleic acid, said isomerized linoleic acid composition being characterized in including at least 50% 9,11-octadecadienoic and 10,12-octadecadienoic acid isomers and less than one percent 11,13-octadecadienoic or 8,10-octadecadienoic acid isomers expressed as peak area percentage.

23. (Amended once) The food product of Claim 22, wherein said conjugated linoleic acid composition is an ester.

24. The food product of Claim 14, wherein said ester is selected from the group consisting of methyl esters, ethyl esters, triglycerides.
